Primary Driving Forces Cluster

Your top driving forces create a cluster of drivers that move you to action. If you focus on the cluster rather than a single driver you can create combinations of factors that are very specific to you. The closer the scores are to each other the more you can pull from each driver. Think about the driver that you can relate to most and then see how your other primary drivers can support or complement to create your unique driving force.

1. Intellectual - People who are driven by opportunities to learn, acquire knowledge and the discovery of truth.

90

2. Collaborative - People who are driven by being in a supporting role and contributing with little need for individual recognition.

Your middle driving forces create a cluster of drivers that come in to play on a situational basis. While not as significant as your primary drivers, they can influence your actions in certain scenarios.

5. Intentional - People who are driven to assist others for a specific purpose, not just for the sake of being helpful or supportive.
